

Star Wars Inspired Ornaments

by Andy's Cozy Crochet

This pattern has instructions for three different ornaments. They are great for a Christmas tree, keychain, backpack, etc.

Supplies:

Worsted Weight yarn in fern green, white, black, and grey.

Size 4.00mm (G) crochet hook

Yarn needle

Polyfil or fiberfil

Notes:

*These are done in amigurumi style, make sure your gauge is tight enough so stuffing doesn't show through but not so tight that you can't stick your hook through. Use an appropriate hook size to reach the appropriate gauge.

*It is meant to be worked in JOINED rounds, so yarn changes aren't obvious and everything looks centered and even.

*How you change yarn colours for the Death Star is up to you – if you want to slip stitch it in, or fasten off and join in, or use a jogless stripes method, any of these are fine.

*Details are back-stitched on with a yarn needle.

Abbreviations: (American terminology)

Stormtrooper

White

R2) inc around, 12 sc

R3) 1 sc, inc around, 18 sc

R4) blo – 18 sc

R5-7) 18 sc

R 8) 2 sc, 5 spike sc, 1 spike dc, spike dc inc, sl, spike dc inc, 1 spike dc, 5 spike sc, 1sc

R 9) “blo only” – This can be difficult with the spike stitches, try to do one st behind each sc spike, dc spike, and dc spike inc (and the sl st) to get 18 sc. I make a sc using one piece of the ‘v’ created by the spike stitches as the st loop. It is most important that there are 18 sc sts made and that the spike stitches create a ridge that sticks out.

Stitch on black details – Backstitch the top line between rows 4 and 5, stitch on eyes and other details as desired.

R10) 1 sc, dec around – 12 sc

R11) dec around – 6 sc – stuff, close, fasten off, put hang loop on top
